ICBDSR ANNUAL MEETING

The 48th ICBDSR Annual Meeting will be held from September 18th to 21st, 2022 in Bologna, Italy, at Hotel Relais Bellaria. It will be an in-person meeting with the possibility to join the scientific session by live stream.

We invite you to submit abstracts for oral and/or poster presentation at the ICBDSR Annual Meeting.

The oral sessions at the Meeting will be thematic; thus, abstract topics should fit one of the following thematic areas:

- Birth defect surveillance and descriptive epidemiology (including surveillance methodology)
- Risk factors for birth defects
- Rare disease
- Covid-19 and reproductive outcomes
- Impact of the pandemic on birth defects surveillance, prevention, and care

Abstract topics for the poster session may include, but are not limited to:

1. Birth defects surveillance and descriptive epidemiology (including surveillance methodology)
2. Risk factors for birth defects
3. Rare disease
4. Covid-19 and reproductive outcomes
5. Impact of the pandemic on birth defects surveillance, prevention, and care
6. Molecular genetics / molecular epidemiology / epigenetics and birth defects
7. Prenatal screening, early pregnancy / birth / postnatal outcomes
8. Psychosocial impacts of birth defects, quality of life, education and other related issues

Authors of accepted posters may be present either in person or virtually and all will be required to send a pre-recorded presentation of the poster, in order to make it available online.

Authors of an accepted poster who will attend in person are encouraged to bring a traditional poster to allow interactions with colleagues present in person.

The abstract is to be submitted using the electronic abstract submission form on the ICBDSR website. Deadline for submission of abstracts is June 15, 2022.

ICBDSR ALESSANDRA LISI AWARD

We are pleased to announce the 2022 Edition of the “Alessandra Lisi Award”. This award was established in 2007, in memory of Alessandra Lisi, a young researcher at ICBDSR Coordinating Centre,

Eligibility requirements

✓ Active contribution to the epidemiology or surveillance of birth defects, preferably with a nICBDSR full member program
✓ Evidence of a promising research career and ongoing commitment to the field, as demonstrated by high quality publications in peer-reviewed journals, initiating or coordinating research projects, or obtaining funding for research in the field of birth defects epidemiology.
✓ Candidates must be within seven years of the date from their last formal training in a field directly related to the disciplines of Birth Defects, Developmental Biology, Epidemiology, or Teratology (e.g. degree conferral, postdoctoral fellowship, residency program, etc.)

Application

The application package should be sent electronically to centre@icbdsr.org. See full information at http://www.icbdsr.org/alessandra-lisi-award/

Nature of the award

The winner will receive a plaque and a travel stipend to attend the ICBDSR Annual Meeting, held in Bologna, Italy, from 18th to 21st September 2022. The award will be presented at the meeting, during which the awardee will present his/her research on birth defects.

Timeline

June 30th: Deadline for submitting application
July 15th: Notification of the winner
September 19th: Award winner will give his/her presentation at the ICBDSR Annual Meeting
Information on the Award and past Awardees at http://www.icbdsr.org/alessandra-lisi-award/

ICBD corner: News and comments from the International Centre on Birth Defects (ICBD)

1. Gene-environment interactions causing birth defects? Many have talked about this and speculated about possibilities, but few true examples have been identified to date (can you name some? Let us know and we will publish them in the next newsletter). One described a little while ago and now resurfacing is related to the metabolism of niacin: https://www.nejm.org/doi/full/10.1056/NEJMoa1616361. Basically, genetic variant in the NAD pathway may lead to niacin deficiency (potentially treatable) and to patterns of multiple congenital anomalies – interestingly, patterns that resemble diabetic embryopathy and VACTERL association. The 2017 paper looked at genes encoding two of the steps of the NAD pathway, but just in the last weeks a team from the Undiagnosed Disease Network has discovered that a gene encoding an earlier step causes similar anomalies. Will this lead to more discoveries and perhaps prevention?
2. The App of the Quick Reference Handbook (QRH) continues to be available on IOS and Apple stores, free of charge.

This app brings to the mobile environment the QRH developed by ICBD / ICDSR in collaboration with CDC and WHO. **Now, checklists, definitions, codes, diagnostic pearls, photos and diagrams** for several major internal and external anomalies are literally at your fingertips.

Thank you for your help in improving and disseminating knowledge on congenital anomalies.

*For the ICBD,*
*Lorenzo Botto, ICBD Director*

**What’s Going on**

**WHO Technical Working Group on Burden of Birth Defect (TWGBBD)**

WHO is seeking to revise previous birth defect estimates from 2006 and wishes to establish the WHO Technical Working Group on Burden of Birth Defect (TWGBBD): for further information please see: [https://www.who.int/news-room/articles-detail/who-technical-working-group-on-burden-of-birth-defects](https://www.who.int/news-room/articles-detail/who-technical-working-group-on-burden-of-birth-defects)

**Call for Abstracts: The 29th International Conference on Spina Bifida and Hydrocephalus- Diverse Needs, Same Rights**

The International Federation for Spina Bifida and Hydrocephalus (IF) invites you to present your work during the upcoming 29th International Conference on Spina Bifida and Hydrocephalus - Diverse Needs, Same Rights

- The call for abstracts is open now, see the guidelines [here](#).
- Who? Everyone, including IF Members for country updates.

For more details, see [here](#)

**London School of Hygiene & Tropical Medicine (LSHTM): Master's Q&A webinars**

*Sign up* for upcoming sessions which will take place on Zoom. Programme Directors, Student Ambassadors and Admissions team will be on hand to answer questions. The link for joining each webinar will be sent automatically on registration. Upcoming webinars:

**Master's programme**

The National Capital Consortium for Pediatric Device Innovation (NCC-PDI), in collaboration with MedTech Innovator, is accepting applications for its annual "Make Your Medical Device Pitch for Kids!" competition. Recognizing the wide range of unmet needs for diagnostic and therapeutic devices designed especially for children, this year’s competition is open to any innovation in medical technology that addresses a significant unmet need in pediatric medical care. Further information here.

US National Public Health Week (NPHW)
The week April 4-10 was the 27th National Public Health Week (NPHW). The theme this year is: Public Health Is Where You Are. The American Public Health Association (APHA) created a toolkit with some great information: https://www.nphw.org/Tools-and-Tips/Toolkit

News from ICBDSR Executive Committee
Online Self-Paced Course on Birth Defect Surveillance and Prevention
The online course remains available for interested professionals. The course has been developed by the International Centre on Birth Defects (ICBD Centre) and supported in part by funding from the National Center on Birth Defects and Developmental Disabilities, US Centers for Disease Control and Prevention, through Agreement with the Task Force for Global Health. The course is designed for clinicians, epidemiologists, public health professionals, and anyone interested in understanding birth defects and improving their prevention and care. The course includes videos, quizzes, a discussion forum, and publications/resources. It is available in English and Spanish. To date, 551 trainees from 72 countries have joined the online course. Additional information is available at http://www.icbdsr.org/online-self-paced-course-on-birth-defect-surveillance-and-prevention/. The registration form is available at https://www.icbdsrtraining.org/login/signup.php? Once registered, you will receive an email with guidance on how to register in the course platform www.icbdsrtraining.org and how to self-enroll in the self-paced course in either English or Spanish.

COVID-19 DATA

Worldwide: The WHO Coronavirus disease situation dashboard presents official daily counts of COVID-19 cases and deaths worldwide: https://covid19.who.int/. Globally, as of 5:22pm CEST, 25 April 2022, there have been 507,501,771 confirmed cases of COVID-19, including 6,220,390 deaths, reported to WHO. As of 18 April 2022, a total of 11,324,805,837 vaccine doses have been administered.

Europe: European Centre for Disease Prevention and Control (ECDC) provides data on the daily number of new reported COVID-19 cases and deaths by EU/EEA https://www.ecdc.europa.eu/en/cases-2019-ncov-eueea

Meetings and Conferences

ATINER 8th Annual International Conference on Public Health, 20-23 June 2022, Athens, Greece. The aim of the conference is to bring together academics and researchers from all areas of Public Health and related disciplines. Both remote (online or pre-recorded) and onsite presentations will be accepted. https://www.atiner.gr/publichealth/

Society for Birth Defects Research and Prevention 62nd Annual Meeting, Hyatt Regency Vancouver, Vancouver, British Columbia, Canada, June 25-29, 2022. The Annual Meeting and Education Courses will take place in-person and will include a virtual experience to make remote participation possible in the event a registrant cannot attend in person. The theme for this year's meeting is “From Bench to Bedside and Back Again”. https://www.birthdefectsresearch.org/meetings/2022/
https://scientificwisdom.org/conferences/epidemiology-publichealth.html

29th International Conference on Spina Bifida and Hydrocephalus Diverse Needs, Same Rights, 5-9 September 2022 [updated dates] - online or Hybrid conference, depending on the COVID-19 situation.
